## SKILLS

### Soft Skill

Creativity  
Time Management  
Flexibility and Adaptability  
Teamwork and Collaboration  
Analytic and Critical Thinking

### Abilities

Web developer (Full stack).  
Image processing.  
Cloud.  
Mobile developer (Studying)

### Programming Languages

Python JavaScript(ES6)  
HTML SQL  
CSS Go  
PHP Flutter

### Libraries & Frameworks

React Robot Framework  
YOLO Flask  
JQuery Tailwind CSS

### Tools & Platforms

Git GCP  
AWS Jenkins  
Docker Terraform  
GoCD

### Design

Figma Photoshop  
Canva

### Language

Thai (Native)  
English (Intermediate)  
Japanese (Beginner)

## EDUCATION

King Mongkut's Institute of Technology  
Ladkrabang (2021 - Now)

GPA : 3.24

(Bachelor of Computer Engineering)

Pattani Technical College (2019 - 2021)

GPA : 3.70

(Department of Computer Technology)

## PROJECT EXPERIENCE

### Front-end Builder

Present

- Front-end Builder is a low-code tool designed for building front-end web pages swiftly, enabling users to create and customize web interfaces efficiently. It enhances convenience in API testing, providing a clearer visualization of API results.

### Sketch-2-Code

25 Oct 2023

- This project incorporates a system that leverages image processing technology to read images and generate HTML files with processed images. The system utilizes the Yolov5 and Yolov7 models for object detection on images and is proficient in converting images in various formats such as JPEG and PNG into HTML code.

### Gintuay.com (Front-end,Back-end)

23 Nov 2022

- This application is a web-based platform dedicated to a Food Delivery System, developed using HTML, CSS, and ASP.NET technologies. The system is designed to facilitate seamless and efficient food ordering and delivery processes.

## INTERNSHIP

### Infrastructure @ Krungsri Auto

30 Sep 2023

- Interned in app development, focused on GoCD pipeline. Managed builds, conducted tests, and oversaw implementation. Enhanced skills in backend and web app pipelines. Collaborated with DevOps teams, gaining insight into infrastructure. Ready to apply knowledge and skills to future projects for continued growth.

## ACHIEVEMENTS

- HPE Aruba academy College Network Enterprise Competition Advantage 2021
- 2 Runner up AFT 2021 Networking Management
- Innovation and Invention Based on Research Methodology Contests 2020
